A New Romance by JULIA KATANAUR, entitled,

RACHEL GRAY:

A TALE, FOUNDED ON FACT.

SV JULIA KAVANAUR.

One Vol., 17me. Paper Covers, So cents: Cloth, 75 cents.
The London Journals all, with one second, units in giving praise to the talent displayed by Julia Kavanaugh in this new Tiele. The Attenuam, one of the most fastidious of critics, easy: "We heartily recommend the story, and shall rejuice when Miss Kavanagh will give us another equally good."

Sonk of the optimizes of the English Pakes.

"Miss Kavanagh has surpassed hereoff in this tale. We prefer it to her. Nathalie' and "Madeleine," clever and attractive as they are."

fer it to her 'Nathalle' and 'Madeleine', clever and attractive as they are."

From The London Post.

"Rachel Gray is a well-written story full of life, passion, and sentiment, and shounding in interesting adventure."

From The London Sun.

"The attention is riveted by the manuser in which the events are described, and the sympathy awakoned by the genuine characters brought forward."

From The London Athensum.

"Rachel Gray" is a charming and touching story, wrought from the humbiest and simplest of materials; but the interest is genuine, and the story is narrated with grace and skill. A young seamstree, neather beautiful nor clever; is the beroine. There is neither love nor the shadow of a lover in the whole hock—the heroine bettle and ends a tumarried—yet the interest is sustained, and the reader's sympathy never fails. The somether, homely details among which Rachel's life is passed are made beautiful, and almost esintlike, by the gentle, single-minded obedience with which they are fulfilled. No one can rest the story and not feel a good influence from it. The characters are vigorously steathed, and have a life like reality. The hisk little Frenchwoman, Madame Rose, brightens the picture; Mr. Jones, the unfortunate tradesman—his hopes, and struggles, and corrows, with his love for his psevish, sickly dampher—has a honely, tradic pathos we have seldom seen excelled; that sick daughter, too, as a slight visite, is and strucket. We heartly recommend the story, and shall rejsice when Miss Kavanagh will give us another equally good."

Are bred in sic a way as this is.
This is the unique title of an original book. Unlike the great
mujority of recent novels, it was written by a man. It is not
one of the quiet, neutral tinted, domestic stories, but a book of
strong and positive character. The location is in Maine, under
the shadow of the White Mountains. The descriptions of country life have a freshness and piquancy, like the native flavor of
wild berries and fruits, which cultivation cannot give.
Without much attempt at artistic construction, the incidents
are varied, and many of them are thrilling. The finding of the
leet child, Amy, and the tracical fate of the blacksmith, Bang,
are among the most powerful sketches in modern fiction.
In one volume, 12mo, with illustrations by Bullings.
